THIS AGREEMENT is made and entered into on this 4th day of May, 2015, by and between the Eastern Contractors Association, Inc., Party of the First Part, acting for and on behalf of its Employer members (hereinafter collectively referred to as the "Association") and the Eastern New York Laborers' District Council and its affiliated Local Union Nos. 35, 157 and 190 (hereinafter collectively referred to as the "Union") Party of the Second Part.

For Locals 157 and 190, this agreement shall become effective on the 1st day of May 2015. For Local 35, this agreement shall become effective on the 1st day of June, 2015. This agreement shall remain in full force and effect for all three Locals until the 30th day of April 2018, and shall continue from year to year thereafter unless written notice setting forth desired changes is given by either party not less than ninety (90) days prior to the expiration date.

ARTICLE I PREAMBLE

This Agreement is entered into to prevent strikes and lockouts and to facilitate peaceful adjustment of grievances and disputes between Employer and employee; to prevent waste and unnecessary and avoidable delays and expenses; and for the further purpose of at all times securing for the Employer sufficient skilled workers and so far as possible to provide continuous employment for labor, such employment to be in accordance with the conditions herein set forth and at wages herein agreed upon so that the stable conditions may prevail and costs may be as low as possible, consistent with fair wages and conditions; and to further establish the necessary procedure by which these things may be accomplished.

In accordance with and subject to the provisions of the Labor-Management Relations Act, 1947, as amended, the Party of the First Part recognizes the Unions, Party of the Second Part, as the exclusive bargaining agent for the employees included under the terms of this Agreement. This recognition is for the purpose of collective bargaining in respect to rates of pay, hours of work, conditions of employment, and all other matters covered by this Agreement. This Agreement shall cover all the work done by laborers coming within the jurisdiction of the Laborers' International Union of North America, affiliated with the Building Trades Department, AFL-CIO. When the Employer, Party of the First Part, employs laborers, the terms and conditions and the rates of wages herein provided shall apply.

ARTICLE II DECLARATION OF PRINCIPLES

1. That there shall be no limitation to the amount of work an employee shall perform during his workday, it being understood that the worker shall perform a fair and honest day's work.
2. That there shall be no restriction of the use of machinery, tools, appliances or standard equipment for the use required, except where life and health are endangered.
3. That there shall be no restriction of the use of any raw or manufactured materials, except prison-made.
4. That no person shall have the right to interfere with workers during working hours, except as hereinafter provided.
5. That the foreman or foremen shall be the agent or agents of the Employer, selected by the Employer, and may be a member or members of the above-mentioned union.
6. That the Union and Employers will work to implement the District Council's Fitness for Duty Program - LiUNA Code of Performance. Contractors will provide feedback regarding employee performance and through Labor-Management initiatives a "clearinghouse" of manpower qualifications and employment history will be established so that information may be shared.

ARTICLE III MANAGEMENT RIGHTS

The unions understand that the Contractor has the complete authority and right to:

1. Plan, direct and control the operation of all his work.
2. Decide the number of employees required.
3. Hire and lay off employees as the Contractor feels appropriate to meet work requirements and/or skills required. The Contractor may hire employees by name, who have special skills or have previous experience.
4. Transfer employees without restriction or limitations, within their own geographical jurisdiction, be it Laborers' Local Union No. 157 or 190.
5. Determine work methods and procedures.
6. Determine the number of foremen.

7. Require all employees to observe the Contractor's and/or owner's rules and regulations not inconsistent with this Agreement.

8. Require all employees to observe all state and federal safety regulations prescribed by the Contractor and/or owner and to work safely.

9. Discharge or suspend employees.

10. The Contractor may, if he desires, maintain a variety of skills within his group of employees to be prepared to have skills and/or supervision for any type of work that may arise.

11. It is understood that all employees will work together harmoniously as a group and as directed by the Contractor.

12. The Unions understand the extreme importance of keeping operating equipment and units running at all times. The Unions also understand that the loss of production and the cost of repairs together create a great loss to the Contractor. Therefore, the Unions will encourage and advise the employees to exhaust every effort, ways and means to perform work of good quality and quantity. The Contractor and the Unions recognize the necessity for eliminating restrictions and promoting efficiency and agree that no rules, customs or practices shall be permitted that limit production or increase the time required to do the work, and no limitation shall be placed upon the amount of work which an employee shall perform, nor shall there be any restrictions against the use of any kinds of machinery, tools or labor-saving devices.

13. It is understood by the Contractor and agreed to by the Unions that the employees of this Contractor will perform the work requested by the Contractor without having any concern or interference with any other work performed by other trades who are not covered by this Agreement.

14. Unions shall require all employees to observe the Contractor's and/or owner's rules and regulations including, but not limited to, safety, drug testing, cell phone use, smoking, break time, etc – providing they don't conflict with this Agreement or Federal or State laws and regulations.

15. When requested by the Employer, laborers shall work as part of a "composite crew."

It is specifically agreed by the Union that it will not take any economic action to enforce said clause or any grievance awards, arbitration awards, or court orders or judgments, pertaining to this subcontracting clause or violations of it by the signatory Employer.

Section 6. Any provisions in this Agreement which are in contravention of any Federal or State laws affecting all or part of the terms of this Agreement shall be suspended in operation within the limits required by said laws. Such suspension shall not affect the operation of any such provisions or any parts thereof to which the laws are not applicable. In the event any section, or portion thereof shall be declared invalid, it is further agreed that the parties hereto shall meet within a period of sixty (60) days to negotiate a new section, or portion thereof, which shall be valid and which shall replace that section, or portion thereof, declared invalid.

**ARTICLE XXIV
JURISDICTION**

The Employer recognizes and respects the fact that the work covered by the Union is fixed by tradition and/or agreement with other trade Unions and past trade practice decisions. The Union, in turn, recognizes the fact that jurisdictional disputes, besides being costly, have the tendency of possibly provoking other labor strife on a job site. Both parties, therefore, agreed to avoid the problems caused by such disputes. The Union, for its part, will take every step necessary, in its relation with brother Unions, to resolve disputes over jurisdiction without recourse to drastic measures which could affect the peaceful continuance of operations. The Employer, for his part, will assign work along lines of established trade jurisdictions.

In order to implement the understanding between the parties as set forth above, the following principles will be adopted, insofar as possible, by both parties:

A CONTRACTOR'S RESPONSIBILITY

1. *Assignment of Work*

a. Where a decision of record applies to the disputed work or where the disputing trades already have an agreement of record applying to the disputed work, the Contractor shall try to avoid disputes by assigning the work accordingly. Decisions of record will be applicable to all trades, while agreements of record will be applicable only to the parties who entered into the agreement.

b. Where there is no decision or agreement, the Contractor shall assign in accordance with the practice in the locality, which locality shall mean the geographical jurisdiction or the local Building and Construction Trades Council in which the project is located.

c. Where the assignment is made after a dispute has arisen and where no decision, agreement or local practice exists, than the Contractor shall make an assignment according to his best judgment but after first consulting the representatives of the contesting trades as well as of any association of Contractors in the locality regarding the established practices.

d. If any decision is made internally by the International Unions or any other body assigned for the purpose of making such decision which is contrary to the assignment made by the Contractor, he shall abide by such decision.

B. UNION'S RESPONSIBILITY

1. *Steps by Union*

a. When a Contractor has made a specific work assignment, the Union shall remain at work and make every attempt to process their complaints over a jurisdictional dispute within the respective organizations and by the guidelines fixed by the internal procedures and machinery afforded to the disputing Unions within their International Union. The Contractor shall hold himself available to submit any data or evidence necessary to facilitate the internal operations and procedures for the resolution of the dispute between the Unions.

b. The Union, following the declaration of policy by the Building and Construction Trades Department, confirms its recognition of the fact that the establishment of picket lines for purpose of objecting to the assignment of work in the building and construction trades constitutes picketing and resultant strikes are in violation of the constitution of the Building and Construction Trades Department.

Section 2. A committee will be established by the Association and the Unions to work towards and implement a clear and concise definition of the scope of work covered by the Building Agreement. The work of the committee shall be completed by September 30, 2015.

The Employer understands that the Union is a fraternal society and as such, in keeping with the provisions of the Labor Management Relations Act of 1947, as amended, has the right to prescribe its own rules and regulations with respect to any other matters for its own use. However, such rules and regulations, whether contained in a bylaw, constitution or otherwise, shall have no effect, directly or indirectly upon this collective bargaining Agreement, any employment, relationship or the relationship between the parties.

ARTICLE XXVII SMALL COMMERCIAL

On all commercial projects valued at \$1,500,000 or less and/or industrial projects valued at \$400,000 or less, excluding demolition work, (the complete razing of structures), 75% of the basic wage scale with full fringes will apply. The Employer is to notify the area business agent office when this work will occur. Such projects shall be single contract, or in the alternative, contracts for general construction. This wage scale shall apply to the general contractor and his subcontractors signatory to this agreement whose contracts jointly do not exceed the \$1,500,000 and/or \$400,000 limitation. In the event a multiple-contract system is used by the owner client, those subcontractors not signators to this Agreement, whose contracts may or may not be assigned to the general contractor, shall be excluded in determining the \$1,500,000 and/or \$400,000 limitation. The signed contract with the owner-client shall determine the dollar amount under this clause. Phased construction exceeding \$1,500,000 and/or \$400,000 total to be performed in sequence without each phase being subject to call for bids shall not be considered within the confines of this agreement. Construction management or time and material contracts must contain an upset price within the \$1,500,000 and/or \$400,000 limitation. However, if Bricklayers and Allied Craftsmen, Carpenters, Operating Engineers and Teamsters do not work at this rate on a project, the Laborers rate shall be the commercial rate for that project.

Commercial projects valued at over \$1,500,000 - 75% of the basic wage scale with full fringes will be applied by mutual agreement on a job-by job basis.

Industrial projects valued at over \$400,000 - 75% of the basic wage scale with full fringes will be applied by mutual agreement on a job-by-job basis.

The above article does not apply to any work in shopping centers.

There are special conditions regarding the employment of union tradesmen and use of union subcontractors relating to the above. Please call Eastern Contractors Association, Inc., 518/869-0961 for information concerning these conditions.

The Employer is to notify the Local President and/or Business Manager and Eastern Contractors Association, Inc. when this work will occur by mail prior to starting work on the project.

C. Participation. The Bricklayers No. 2, Carpenters No. 370, Laborers Nos. 157 and 190, and Teamsters No. 294 working on the project must agree to work for the same retail buildings rate. If any of the above trades working on the project do not work at the retail buildings rate, the Laborers Nos. 157 and 190 rate shall be the base rate as contained in Article XXI, Schedule A of this Agreement, at the option of the Local President and/or Business Manager and upon notice to the Employer by the Local President and/or Business Manager for that project.

D. Special Conditions. Make-up as provided elsewhere in this Agreement.
